

Gratitude REPORT

Summer 2023

“ It so great that our generous donors helped us **purchase three adaptive tricycles** - thank you! These specialized bikes are used for physical assessments and therapy, as well as for recreational therapy. The children we support really do feel the freedom of riding a bike while their clinician or care-giver is assisting - **the smiles on their faces say it all!** ”

- Stacey Collie, Recreation and Leisure Facilitator

“ Our daughter has autism and has been coming to **George Jeffrey Children's Centre** since she was about 8 months old. **She has made so much progress** and has so many skills because of the services she uses at the Centre - she can bowl, curl and **even ride a bike.** - Sue, Emmie's Mom ”

Here's 7 year old Emmie riding one of the new adaptive tricycles at the Centre's Annual Bike Clinic. Go Emmie!

Many thanks to our **771** Generous Donors who made **1127** Donations!
